An Overview of Life Quality Homes of Denver

A person with memory loss or confusion can feel lost in a larger facility, which can increase anxiety and behavioral problems. Since 1992, Life Quality Homes of Denver has provided a sense of comfort and safety in a familiar and calming environment.

Our Mission

Life Quality Homes of Denver provides professional care services for those who are experiencing any stage of Alzheimer's disease or related disorders. We are committed to pleasantly exceeding our community and client families' expectations by promoting dignity in a secure residential home for the best possible quality of life.

Who We Are

Since 1992, Life Quality Homes of Denver has provided care for individuals suffering from Alzheimer's disease and related disorders in secured, residential homes. We provide expert, compassionate care 24 hours a day in a residential home that enriches the quality of life, not only for our residents but for their families as well.

People with Alzheimer's disease have unique needs that require specialized care. Medical research has shown that people with dementia often function better in a small, home-like setting. The familiar and calming environment of a home promotes a sense of comfort and safety for them. Life Quality Homes of Denver provides just this type of experience. We are a state of the art home care alternative to institutionalized care for people suffering from Alzheimer's and related disorders.

Our impeccable homes, located in beautiful, mature, residential neighborhoods have all been remodeled to meet the specialized needs of people with dementia. Each home is licensed as a secure care environment and has five or six residents. To minimize fall risks, you will not find any steps up or down in our homes. What you will find, however, are spacious bedrooms, private baths and homey kitchens! Homes are secured discretely and our beautiful yards are enclosed for safety. We find that many family members prefer spending time with their loved ones in our homes as opposed to a larger facility.

Locations

We operate homes in the south Denver metro area. Homes are located in and near Centennial, Littleton, Englewood, Lone Tree and Highlands Ranch. Each single level home is licensed as a secure care environment. Our homes are located in mature neighborhoods with beautiful landscaping and private backyards. We provide appropriate adaptive safety devices along with all the comfortable amenities of a single family home.

***Choose Life Quality Homes of Denver
as the place for your loved one to have a peace-filled life.***
